MEMORANDUM FOR: Chief, Materiel Division, OSA
SUBJECT: Clarification of Letter Suffixes
REFERENCE: 5661 (IN 65161)

25X1A

The referenced message quotes recommendations for "E" and "F" models. In order that all concerned may know what specific model is referred to when the letter suffixes are used, please provide a list of all models of the U-2 and briefly indicate what each letter suffix means. The only two letter suffixes used in the Flight Handbook are "C" and "F" and therefore, the suffix "E" conveys no specific meaning.
